Community Solidarity Rally in support of workers and youth at Children's Aid Society of London & Middlesex, OPSEU Local 116

Join the rally and sign an Open Letter to the Premier asking for immediate funding to not-for-profit placements and supports for children and youth with complex needs.

The government's failure to provide safe placements and treatment has jeopardized the health and safety of both workers and youth, putting communities at risk. It's time to take the profit out of the system and provide stability for youth in care!
